The boy drew a picture on his slate and then he wrote "home under it to tell what it was." That is the character of some people's jokes. Sometimes one hides behind a joke to make a sling at a church, or even a revival, but when the joke is very thin you can see generally always sometimes tell.

Capt. John S. Wilkes is having the smaller room in the basement of the Methodist church fitted up, and is going to have his Bible class recite there every Sunday morning. If the entire basement could be renovated and used for Sunday school and on prayer meeting occasions, then the main auditorium could be kept in much better condition for the regular Sunday morning and evening services.

We take the following complimentary mention of one of Pulaski's beautiful daughters from the Washington (D. C.) Republic. Miss Minnie is the accomplished daughter of Esq. Gov. J. C. Brown and is attending the convent school in Georgetown. Last week a large number of the friends of the Academy of the Visitation in Washington personally interested in the advancement of the pupils were invited to a "musical," and the result was in every way quite satisfactory. The music was selected from some of the best works of the ablest writers and interpreted by the young ladies who had achieved the highest distinction in the academy. As an instrumentalist Miss Minnie Brown did herself and Moschles' music, after studying for days, "Homage to Handel." There were vigor, precision and a refined taste in her touch.

A lady drove up to a grocery house in Pulaski the other day and called for the proprietor to bring out his best butter. He came out with a smile and frisk, and after sticking his nose in it, and assuring her it was sweet and clean. She took it home and the family soon smelt a rat, or something equally as bad. She knew the man would take it back to its condition and so she remoulded it in her private stamp and sent it down to sell it to him. He smelt it again and pronounced it spoiled, but would take it at a reduced price, and he went in chuckling over his bargain. He will be surprised to read this and find out that he paid more than he got for it; and if he says a word of it, he will be indicted him, but will start the jury that he spoiled the butter when he stuck his nose in it.

The Revival.

The services at the Methodist church were discontinued last Sunday night and will be resumed to night. Up to Monday the pastor had 172 names of those he knew to have been converted and 140 have joined that church. Even if the work stops here, it is the most wonderful revival of religion, both as to extent and the character of work done, that ever occurred within our knowledge. Ordinarily preachers count every renewal of a backslider as a conversion and in this way foot up amazing results. The yellow horse of Mr. Rose's, old Frank, ran away with Ed. Martin and Will May Sunday afternoon about five miles from town out on the Cornersville road. They had been to—well, it don't matter where they had been, but they had on their best clothes. Old Frank got the drop on them and before they knew it he was bounding over the ditches and through the mudholes at a speed too swift for comfort. At that moment if they could not have felt more serious. Suddenly the horse pulled up in a fence corner and Ed stuck his head between the shafts to see if Frank had skinned his heels, and took the spatter board off with his knees. When W. C. Carter had been found a hole of the spokes of the front wheel wound around his legs and he was addressing Frank in the gentlest manner and talking soft to him to try to calm him down.
